ThinkPad 760XD/XL, 765D/L						
	16MB S	104MB	2	16MB Module	TS16MTP7341	92G7341
The system comes with 16MB standard				32MB Module	TS32MTP7342	92G7342
8MB soldered on the system board and				64MB Module	TS64MIB0268	76H0268
8MB on the DIMM adapter card. The DIMM						
adapter card has 2 expansion slots.						
The first slot (left-side) can accept up to						
32MB, and the second slot (right-side) can						
accept up to 64MB. When the 64MB is used						
this disables the 8MB on the DIMM adapter						
card. Therefore the maximum memory is						
as follows:						
104MB = 8MB (system board) + 32MB (left-side slot) + 64 (right-side slot)						
When install 64MB module, Please slide switch to left side position						
ThinkPad 770 (9548, 9549)-xxx						
	32MB S	256MB	2	32MB Module	TS32MIB0294	76H0294
